

ELECTRO-PNEUMATIC POSITIONERS PS100

DESCRIPTION

The PS100 is a digital electronically configurable positioner designed for mounting to pneumatic linear or rotary actuators. It features a small and compact design with an excellent cost-performance ratio.

Fully automatic determination of the control parameters and adaptation to the final control element yield considerable time savings and an optimal control behaviour.

MAIN FEATURES

- Low operating cost.
- Compact and cost-effective.
- Easy to commission with user-friendly interface.
- Mounting onto any linear or rotary actuator.
- Negligible air consumption in stationary operation.
- Increased shock and vibration resistance, including steam hammers.
- Non-contact position detection with one-button initialization.
- Leakage compensation to ensure a constant actual value and to protect the actuator.
- Fast response in end positions ensures short positioning times and tight valves.
- Fast open/close end position behavior.

OPTIONS AND

- ACCESSORIES:
- ATEX, FM, CSA and IECEx approvals.
 - Module for analog position feedback.
 - Digital input and digital output signals.
 - Attachment kit for linear actuators according to IEC 534/NAMUR and rotary actuators according to VDI/VDE 3845.
 - Connection manifold with gauges.

AVAILABLE

- MODELS:
- PS100.

TECHNICAL DATA

GENERAL	
IP rating	IP 66 NEMA 4X
Material	Housing in Aluminum or Alu/polycarbonate Gauge block in aluminum or stainless steel Pressure gauge in stainless steel and brass
Pneumatic connections	Female threaded ISO 228 G 1/4" or 1/4" NPT
Electrical connections	M20 x 1,5 or NPT Cable glands Screw terminals: max. 2,5 mm ²
Weight	Approx. 1 kg (without accessories)
Mounting orientation	Any *
Directives	Compliant with: - EMC directive 2004/108/EC from 12/2004 - EC Directive for CE conformity marking

* In wet environments the pneumatic connections and exhaust openings should not be facing upwards.

OPERATING CONDITIONS	
Ambient temperature	-20 to +80 °C
Relative humidity	0 to 100%
Pollution degree acc. to IEC 61010-1	2
Overvoltage category acc. to IEC 61010-1	II
Vibration resistance	98 m/s ² , 27 to 300 Hz *

* Recommended continuous operation range of the complete valve of 30 m/s².

CONTROLLER	
Controller unit	Adaptive five point switch
Deadband	Adjustable max. value $\pm 0,1$ to 3% Minimization of the max. value is always active
Analog input (IA)	Sampling interval: 50 ms Resolution: 0,05%
Position detection	Sampling interval: 10 ms Resolution at 10mm stroke: 0,1% Temperature influence effect: 0,1%/10 K

AIR SUPPLY *

Purity	Maximum particle size: 5 µm Maximum particle density: 5 mg/m³
Oil content	Maximum concentration: 1 mg/m³
Pressure dew point	Minimum 20 K below operating temp
Supply pressure **	1.4 to 7 bar
Air consumption	In stationary operation: < 36 x 10 ⁻³ Nm³/h During pressurization: 7,1 Nm³/h at 4 bar; 9,8 Nm³/h at 6 bar During exhaust: 13,7 Nm³/h at 4 bar; 19,2 Nm³/h at 6 bar
Valve leakage	< 6 x 10 ⁻⁴ Nm³/h
Sound pressure	L _{Aeq} < 75 dB; L _{Amax} < 80 dB

* Free of oil, water and dust, according to DIN/ISO 8573-1, with oil content and purity according to Class 3.

** Do not exceed the maximum operating pressure of the actuator!

ELECTRICAL CONNECTIONS

TERMINALS

TERMINAL	DESCRIPTION
+6 / -7	Analog input
9 / 10	Digital input DI (optional)
+31 / -32	Digital output DO (optional)
+61 / -62	Analog feedback AO (optional)

Remarks: The descriptions on the PS100 front cover sticker does not imply that the unit is fitted with the respective option modules. Optional modules are not retrofittable and can not be activated with a digital key.

ANALOG INPUT (AI)

Terminals	+6 / -7
Nominal operating range	4 to 20 mA, two-wire
Minimum current to maintain operation	3,8 mA
Static destruction limit	± 40 mA
Load voltage	6,5 V at 20 mA
Impedance	325 Ω at 20 mA

MODULE FOR ANALOG FEEDBACK (AO) *

Terminals	+61 / -62
Signal range	4 to 20 mA
Faulty current	< 3,6 mA
Supply voltage (two-wire technology)	24 V DC (12 to 30 V DC)
Resolution	0,05%
Transmission error	± 0,3%
Effect of ambient temperature	± 0,1%/10K
Max. residual ripple	± 0,5%
Electrical isolation	Electrically isolated from the other inputs and outputs

Remarks: Without any signal from the positioner (e.g. "no power", "initializing", or in the event of an error), the module sets the output to >20 mA (alarm level).

A

B

A

Basic device

B

Options

DIGITAL INPUT (DI)

Terminals	9 / 10
Electrical isolation	Electrically connected to analog signal and isolated from the outputs
Signal state "0"	> 300 kΩ
Signal state "1"	< 3 kΩ
Contact load	Max. contact load < 20 µA, 3V (suitable only for floating contact)

DIGITAL OUTPUT (DO)

Terminals	+31 / -32
Max. supply voltage	35 V
External current consumption	To be limited to 50 mA
Signal status High	Conductive, maximum rated voltage of 3 V
Signal status Low	Blocked, I < 60 µA *

* Locked is also the state at which the device is faulty or analog input (AI) is equal to 0 mA.

Remark: For full product specifications, including requirements for use in potentially explosive atmospheres please consult.

ORDERING CODES PS100

Group designation	6DR71	0	1	0	N	N	0	11A	A9	
PS100 electro-pneumatic positioner	6DR71									
Enclosure material										
Aluminum body and polycarbonate lid with inspection window	0									
Aluminum body and lid without inspection window (non standard)	1									
Output / Safe position (in case of an electric power failure)										
Single acting, fail safe	1									
Double acting, fail safe (non standard)	2									
Explosion protection										
Without explosion protection	0									
Ex ia (ATEX, IECEx, FM, CSA,...) a)	1									
Communication										
4 to 20 mA					N					
Digital signals										
Without digital signal module						N				
Digital input (DI) and digital output (DO) b)						A				
Analog position feedback										
Without analog output module							0			
Analog position feedback (AO), signal range 4 to 20 mA, two-wire							1			
Connections										
Electrical: M20 x 1,5 with plastic cable glands; Pneumatic: ISO 228 G 1/4"								11A		
Electrical: 1/2" NPT without cable glands; Pneumatic: 1/4" NPT								44B		
Mounted accessories										
None									A9	
Special construction / Additional options										
A full description must be provided and validated in case of a non-standard construction.										E
